It Resulted in Placing Everywher Five Britons to One Boer, Making the Capture of Winburg and Smalldeel Easy-Farmers Well Armed.

London, May 8 .- The Boers are everywhere retiring before the British, except on the Natal frontier and at Mafeking, to the inner circle of their defenses. They appear determined not to fight until the Kroonstad hills are

other 40 or 50 miles and then to wait for a time in order to bring up supplies and to repair the railway. There are one or two hints in the dispatches from the front that he may rest for a few days at Smaldeel.

Gen. French's 10,000 cavalry have not

been mentioned in the official or unof-ficial dispatches for four days. It is by no means likely that he is idle, and the conjecture is that he is either de-touring toward Kroonstad or raiding the Ladybrand district.
Fifteen thousand British are now op

erating on the western frontier of the Free State. As the deadlock at Warrenton has been broken and the Boers are retreating, there is nothing formid-able except distance between Warrenton and Mafeking. The most hopeful advices from Mafeking, on April 22, were that the garrison would be barely able to hold out for a month. At that

time the fever was spreading.

According to advices from Maseru,
Basutoland, several thousand Free
Staters are north of Ladybrand, where
they have collected great herds. This
district is rich in food for men and horses, and the Boers seem resolved not to move northward, but to be preparing to resist where they are. If they are let alone they will menace line of communications after the main British army has passed into the Transvaal. The movement that culminated in

the capture of Winburg and Smaldeei was part of a great general movement extending from Gen. Hunter, on the west, to Gen. Rundle, on the east. Lord Roberts' admirable strategy resulted in placing everywhere British to one Boer. Out of what appeared the inextricable confusion of divisions and brigades order was quickly evolved, and the Boers were compelled to meet Lord Roberts under unfavorable conditions. What is more important is that the

British are now able to wait. Their front and strong positions are safe in the knowledge that their flanking colamns will advance and outflank the

Saturday the Boers held a really strong position, from which, earlier in the campaign, they could only have been forced by hard fighting. Gen-eral Hamilton's arrival at Winburg, although not directly outflanking the Boers, made their position extremely uncomfortable. Gen. Hatton's movement was even more successful than at first imagined. Forty Boers were kill-Lord Roberts has been very strict

ALLEGED POSTOFFICE EMBEZZLER.

Charles F. Neely Charged With Dishonesty in Cuban Mail Service. New York, May 8.—Charles F. Neely was arrested in Rochester Saturday night and brought to this city Sunday night on the charge of embezzling \$36,-000 from the government while he was treasurer of the postoffice department in Cuba. It is asserted on reliable authority in Havana that since July of last year the government has been de-frauded monthly of more than \$12,000 on stamped paper alone. The culprit or culprits are believed to have re-ceived \$28,000 and to have accounted for only \$16,000. During the last four months it is said that Neely's shortage in the aggregate has not fallen below \$36,000 and that, prior to the beginning of this year the average

was much higher.
For a long time Neely lived extrava-gantly. Auditors Reeves and Reynolds have been temporarily suspended. Maj. Rathbone, director of posts, set special agents at work investigating the mat-ter when first it was called to his attention some weeks ago. These agents reported April 23 that the accounts

Still Further the Powers of Laymer

Chicago, May 8.-As the time ap proaches for settling the question of how many bishops are to be elected by the Methodist general conference the sentiment is growing among the delegates that none of the present occupants of the high office should be retired and placed on the superannuated

It seems probable that, because of the advanced age of several members of the episcopacy, the committee on episcopacy will recommend the tion of five additional bishops. Three will be for work in this country and two to supervise the missionary work in Asia. There are 20 or more avowed candidates for the high office of bishot notwithstanding the fact that it is no likely that more than five additions will be made. Among those prominently mentioned for bishops are Dr. J. W. Hamilton of New York, Dr. J. F. Berry of Chicago, Dr. Henry Spellmeyer of Newark, Dr. T. B. Neely of Philadelphia, Dr. William F. Mc-Dowell of Colorado and Dr. W. V. Kelly of New York. It is possible that much opposition to the election of a colored bishop will appear when the matter is taken up by the conference. The southern delegates, it is said, will vote colidly in favor of the innovation, but hundreds of representatives of northern conferences, it is said, will candidates for bishop, it is believed, will operate against the chances of Dr. J. E. Bowen, of Washington, the leading colored aspirant.

The committee on temperance lis-tened to the reading of several memorials referred to it by the general conference. One memorial condemn ed President McKinley for laxity in enforcing the anti-canteen law an another recommended amending the book of discipline so that members of the church who rent property for sa-loon purposes may be brought to trial They were all referred to committee.

A many sided movement to increase still further the powers of laymen in the Methodist church organization car be marked as the standing commit-tees of the general conference settle down to business. It is the outgrowth arrested. of the new equal representation of laymen and ministers and the admistration of the provisional lay delegates.
